Categories that bother me...

White / Negro and other Races

- Why are there only two distinctions?
- Isn’t “Negro” an unacceptable (or rude!) term?
- Why classify by white AND country of origin?
- The whole thing seems kind of racist.
- Does this even tell me anything about immigration?
- Does that mean that the US gov’t was still racist? I thought the Civil Rights struggle was over in the ‘60s.
- What was the point of measuring whiteness?
- Immigrants could fit into both categories.
